Declaration of originality and academic integrity

INSTITUT D'ENSEIGNEMENT SUPERIEUR DE RUHENGERI, Mobile Application Development (SWE 3409), Individual Assignment 2

Full name	TUYISINGIZE Devotha
Registration number	25/27747
App name	DevothaPortfolio
Verification code	MOB-A2-7747
Repository	MOB_A2_2527747

I declare that

1. This submission is my own work. The app name, text, colours, projects and profile information are personally selected and describe me and my own projects.
2. The portfolio does not contain fabricated claims. The two projects shown (SPPS and AgriPulse) are projects I built, and the skills listed are skills I used in them.
3. Libraries and starter tools are acknowledged in the README: Expo, React Native, React Navigation, Expo ImagePicker, Expo FileSystem and AsyncStorage.
4. I used an AI assistant (Claude) to help draft code and documents. This is fully disclosed in evidence/AI_USE.md. I have reviewed the work and understand it.
5. The repository contains no passwords, tokens, private keys, node_modules or build caches.
6. The APK was built with EAS Build, installed on a physical Android phone and tested without Expo Go. The test log records what I observed.
7. The demonstration video is one continuous, unedited recording made by me.
8. I understand that substantially identical submissions may be referred for academic integrity review.
